Expert in React and Node.js with solid experience in developing real-time messaging applications and creating custom CMS. I combine advanced technical skills such as animations and socket.io with a focus on user experience to create robust and scalable web solutions. Known for my effective communication skills, teamwork, and adaptability to multicultural environments. As a team player, I enjoy collaborating and supporting my colleagues to achieve common goals.

PROFESSIONAL EXPERIENCE

Nolatech

Front end Developer

Panama

January 2023 - Present

- I developed various Administrative Panels (HUB/CMS) with on-demand features for multiple clients, aimed at managing high-impact information, using React.js and Next.js, along with tools like Redux, MUI, Mantine, Socket.io, among others. The implementation of these panels increased client productivity by 30% by simplifying workflows and automating repetitive tasks.
- Successfully optimized the performance of three existing company projects by 50% through the modularization of existing components and the addition of new components.
- I designed and developed high-impact landing pages with interactive animations for application products and services, achieving a 40% increase in user conversion rates. The carefully implemented animations enhanced the appeal of client services, increasing dwell time by 25%.
- I developed a library to streamline the creation of administrative panels for applications, significantly improving the company's development speed in this specific area.
- I developed web versions of existing company applications, thereby expanding their reach and enhancing client interaction, primarily focusing on web messaging applications.

Freelancer

FullStack Developer

Bolivar, Venezuela

July 2022– December 2022

- I developed and optimized various projects, taking on support roles to correct and improve existing functionalities, as well as resolve bugs, reducing client product load times by up to 15%.
- I initiated and led projects from scratch, prioritizing quality and efficiency at every stage of development. I utilized technologies such as React, Node.js, and MongoDB to create robust web applications.
- I maintained efficient communication with clients to meet their needs and ensure their satisfaction with the results.

Ultrabodegon

FullStack Developer

Bolivar, Venezuela

December 2021– July 2022

I developed a comprehensive solution for a small local business using Next.js and MySQL, which included:

- **Inventory Management:** Implemented an efficient system to manage product stock.
- **Product Visualization:** Created a user-friendly interface to display the product list to users.
- **Purchase Flow:** Designed an intuitive and smooth purchasing process.
- **Purchase Statistics:** Generated detailed reports on user purchases.
- **Dynamic and Responsive Design:** Ensured an optimal user experience on both web and mobile devices.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, SASS, LESS, Tailwind, Styled-components, Emotion, JavaScript, TypeScript, JQuery, ReactJs, Redux, NextJs, VueJs, Axios.
- **Backend:** NodeJs, ExpressJs.

- **Workflow:** Jira, Trello, Slack, Git, Github, Notion.

ADDITIONAL SKILLS

- **Soft Skills:** Effective Communication, Teamwork, Problem Solving, Adaptability, Time Management, Critical Thinking, Creativity, Empathy, Active Listening, Emotional Intelligence
- **English Level:** B1
